

# Working Group: Solar PV Rooftop Systems

## Objective

- To give insights on structure of third-party ownership models and how public roofs can benefit from these models.
- To provide a discussion platform on business models options for public roofs, comments and feedbacks will be part of 'GIZ Solar PV for Public Roofs Implementation Guidelines'
- To provide space for the communities to get in touch with companies and experts to discuss concretely on the projects.

## Participants

- German companies
- Universities
- Financing institutions
- Community representatives and other potential clients
- Governmental representatives
- Thai and international experts
