

Developing climate relevant award criteria for “Uninterruptible power supply (UPS)” and “Computers” for eco-labelling and GPP

Draft Criteria for GPP
(Day 3)

Tobias Schleicher & Siddharth Prakash
Baan Amphawa, February 2014

Draft Criteria

<p>Scope</p>	
<p>Climate-relevant Criterion n°1</p>	
<p>Verification mechanism Criterion n°1</p>	
<p>Climate-relevant Criterion n°2</p>	
<p>Verification mechanism Criterion n°2</p>	

Verification mechanism

1. Self- declaration (not recommended!!)
2. Specific standard for the measurement (also form of self-declaration)
3. Specific standard + confirmation and test from independent laboratory/test institute
4. Specific standard + confirmation and test from independent laboratory/test institute (certified according to specific standard e.g. EN 17025)
