

GOVERNMENT GREEN PROCUREMENT IN MALAYSIA

21 MAY 2014

WHAT IS GGP

“Acquisition of products, services and work in the public sector that takes into account environmental criteria and standards to conserve the natural environment and resources, which minimises and reduces the negative impacts of human activities”

(Introduction to GGP KeTTHA, 2012)

WHAT DOES IT MEAN?

Acquisition of products, services and work:

Minimize degradation to the environment

Have zero or low green house gas (GHG) emission

Safe for use and promote healthy and improved environment for all forms of life

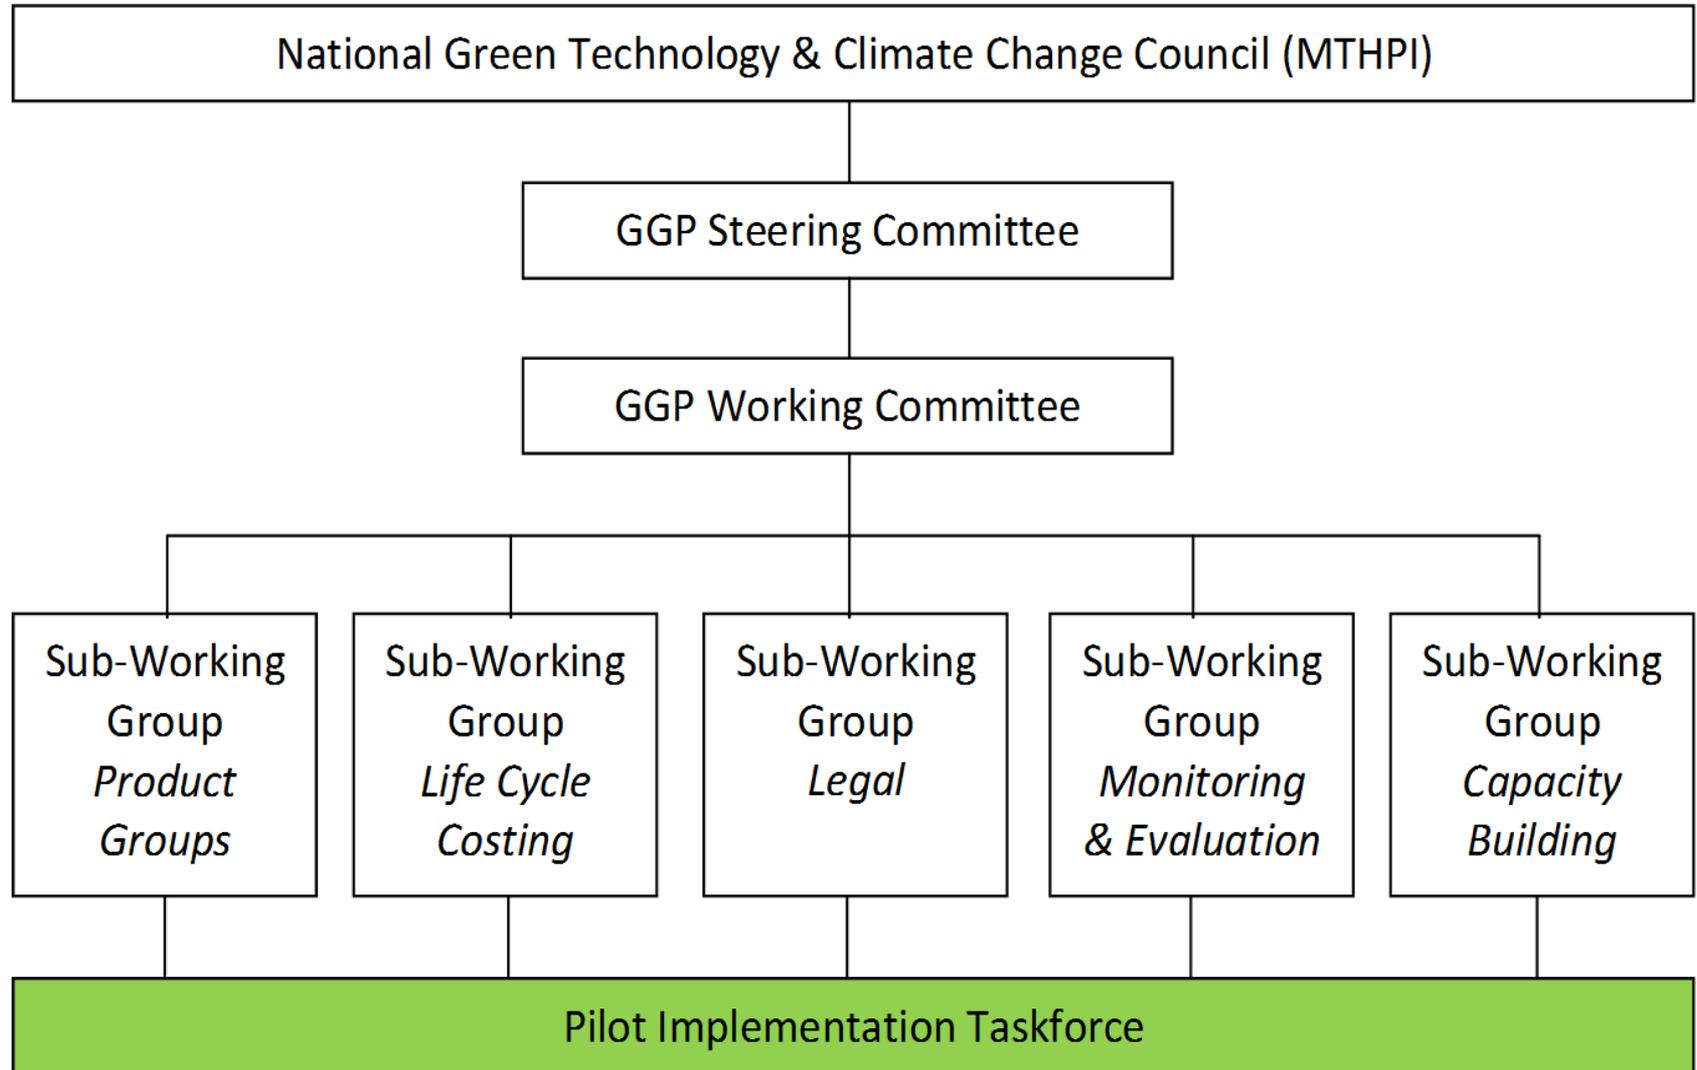

Conserve the use of energy and natural resources

Promote the use of renewable resources

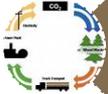

GGP Institutional Framework in Malaysia

GGP Short Term Action Plan (2013-2015)

Identify Product Groups

Life Cycle Costing (LCC)

Pilot Implementers

Review Rules and Regulations

Capacity Building

Communication and Awareness

Monitoring and Evaluation

Prepare Long Term Action Plan

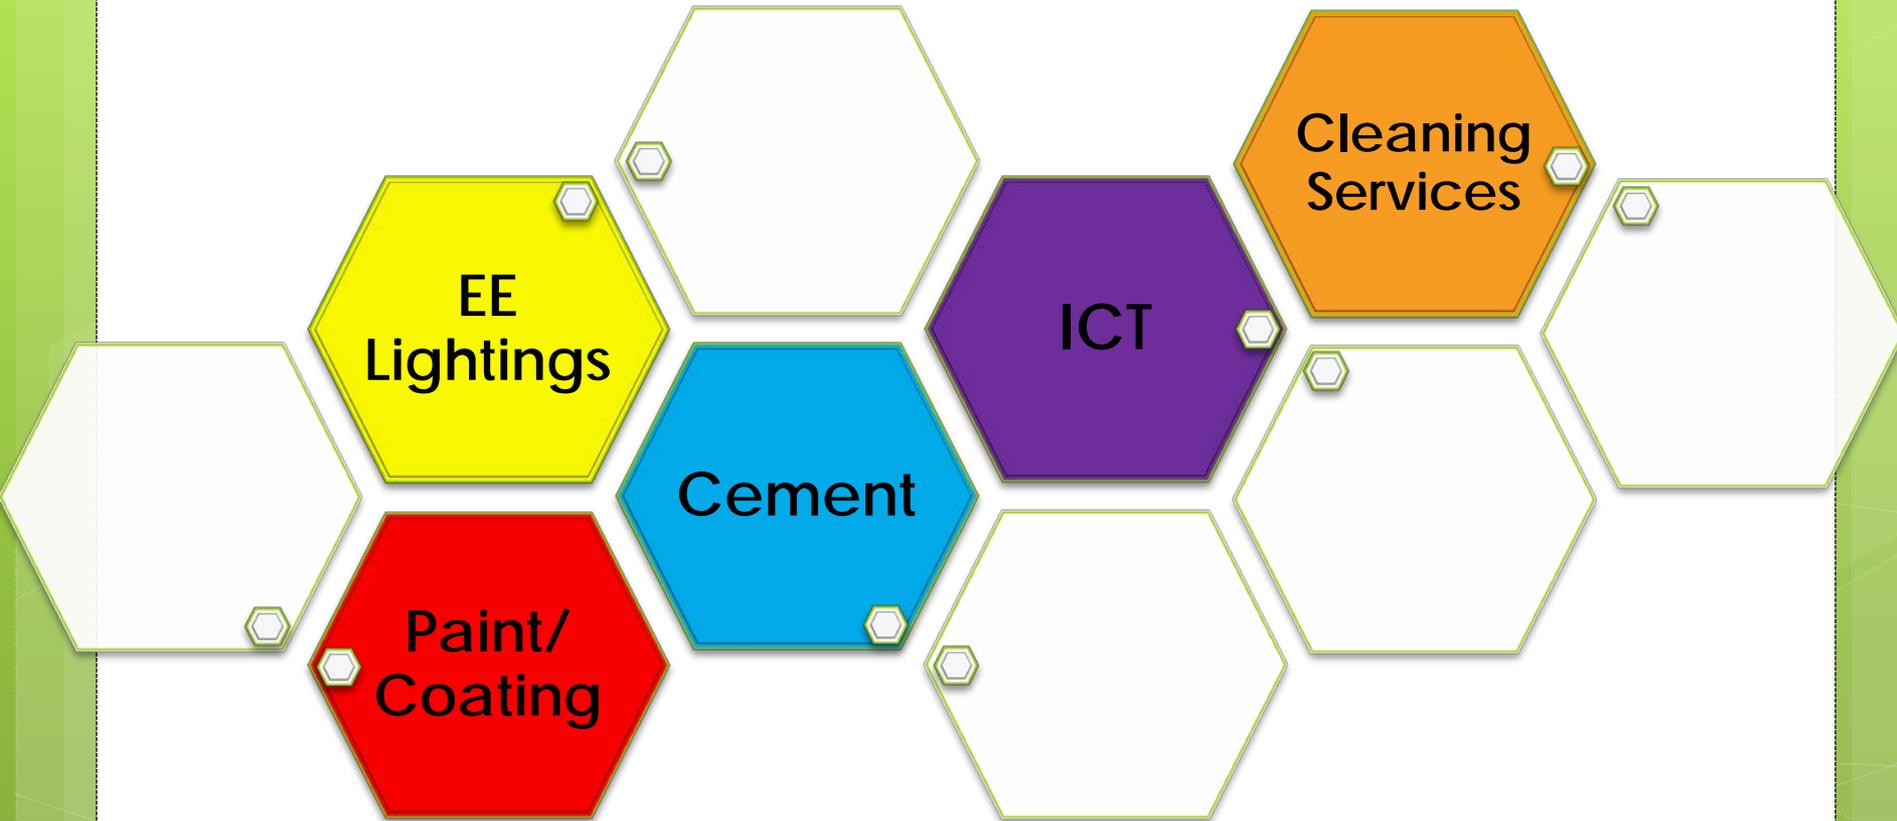

TARGET FOR GGP

In GGP Short Term Action Plan, the targets are as follow:

TARGET	ACTUAL
Selection of 2 products/services	5 products/services group
Selection of 2 pilot Implementers	5 ministries: <ul style="list-style-type: none">• EPU• MOE• MOH• KeTTHA• KDN

SELECTION CRITERIA

The identification of priority sectors in GGP Short Term Action Plan are based on these factors:

Existence of criteria and standards for green products or services under Green Labelling System (MyHIJAU Label)

Development of local manufacturers especially SMEs to be more competitive with international market

Significant impacts on the environment such as reduction of CO₂ emission, efficient use of water and energy resources as well as reducing the use of toxic substances

Consumption of products and services in the government sector

Government Green Procurement (GGP) A Guideline for Government Procurers

Version 29 April 2014

Guideline for Government Procurers

- supports the pilot GGP implementers.
- provides the information on how to apply GGP for 5 important pilot product groups/services.
- provides further insight into GGP implementation to all other interested agencies and stakeholders.

TREASURY CIRCULAR LETTER

- initial information about the initiative of GGP
- to increase awareness and knowledge of the agencies in Malaysia about the initiative of GGP

KEMENTERIAN KEWANGAN MALAYSIA

SURAT PEKELILING PERBENDAHARAAN BIL. 2 TAHUN 2014

Semua Ketua Setiausaha Kementerian
Semua Ketua Jabatan Persekutuan
Semua Setiausaha Kerajaan Negeri
Semua Ketua Badan Berkanun Persekutuan
Semua Pihak Berkuasa Tempatan

**PELAKSANAAN PEROLEHAN HIJAU KERAJAAN
(GOVERNMENT GREEN PROCUREMENT – GGP)**

TUJUAN

Surat Pekeliling Perbendaharaan ini bertujuan untuk memberi maklumat awal mengenai Inisiatif Perolehan Hijau Kerajaan (Government Green Procurement - GGP) serta memberi kesedaran dan galakan bagi meningkatkan pengetahuan Agensi dalam menajayakan pelaksanaan GGP di Malaysia.

LATAR BELAKANG

2. Mesyuarat Majlis Teknologi Hijau dan Perubahan Iklim (MTHPI) pada 23 Oktober 2012, yang dipengerusikan oleh YAB Perdana Menteri telah memutuskan bahawa Kementerian Kewangan berperanan sebagai penyelaras kepada GGP sebagaimana yang terkandung di bawah Program MyHIJAU yang diselenggarakan oleh Kementerian Tenaga, Teknologi Hijau dan Air. Program MyHIJAU terdiri daripada empat (4) komponen iaitu MyHIJAU Perolehan, MyHIJAU Direktori, MyHIJAU Pelaburan serta MyHIJAU Industri dan PKS.

3. Unit Perancang Ekonomi, Jabatan Perdana Menteri pula bertanggungjawab untuk melaksanakan kajian berkaitan Penggunaan dan Pengeluaran Mampam (Sustainable Consumption and Production). GGP merupakan komponen utama di dalam kajian tersebut.

KeTTTA
KEMENTERIAN TENAGA,
TEKNOLOGI HIJAU DAN AIR

EXPECTATION

- To get better value for money
- To promote sustainable management of resources
- To promote local demands for green products
- To promote the supply of green products and services
- To improve the competitiveness of local industry
- To explore new market

CONCLUSION

- Malaysian Government has shown its strong commitment towards GGP implementation
- GGP is in line with Malaysia aspiration towards developing low carbon economy and GGP can be a significant source of support for sustainable development policy goal in Malaysia
- GGP implementation will encourage SCP practices and enable Malaysia to achieve an inclusive and sustainable, high-income nation by 2020

THANK YOU. . .
